

**BULLYING**

## BULLY BUSTING

Notes from the Field

April 2010

Marcy Harvey and Rosemary Travis have been sowing Harmony “seeds of solving” in Lambton County classrooms since January. The word is out in Bright's Grove, Aberarder, Mooretown Courtright, and Bridgeview schools that bullying is never acceptable and that everyone has the right to feel safe, be safe and grow to their full potential.

Imagine this: you have planted a garden but you decide to water and tend to only one small patch. What will happen to the rest of the seeds? Of course, they will either be choked out by weeds or not grow at all.

This is what happens with bullying. 85% of us choose to do nothing when we witness it. Bully Busters is putting the positive “power” tools in the hands of students. There are still a few “weeds” in the BB garden but Marcy and Rosemary are seeing a lot more seeds growing and blossoming. Happy Spring!
